“ *I worked with Craig for many years. I just heard of his passing recently. Sorry I am so late in passing my thoughts. Craig was pivotal in improving the transmission design at H-December. I will always remember his sly smile when he looked at what others had done and said, "Sh\$, we can do that!" And do that he did. I believe that he was our greatest asset in doing the hands on work. He will look always be cherished by me for sure and I hope by many others. Oh yeah, did I mention he was a little stubborn ?*
