“ *I served with Chief Solberg on the USS CAPE COD. in addition to being my duty section I leif solberg obit eader, he was also one of the chiefs in my division. I was a division yeoman. Next to ETCM CONE, CHIEF SOLBERG was one of my favorite chiefs in our division. He often talked about his family, especially his wife Jan.*

“ Jan,
Life is full of surprises. Some of them (your loss of Leif) and some special (recognizing each other at the VA's Memorial Service and suddenly realizing that I had known him personally).

I know that losing Leif was a big a tragedy for you as was my loss of Floyd. When you are blessed with marriage to someone who fills your heart with so much love, it's easy to feel a deep emptiness where his smile once lit up your world.

Please give me a call. We truly have shared that special miracle. It was a pleasure to have dinner with you and meet your daughter and her friend. Gayle and I feel honored to have spent that time together.

“ *I will remember only the good times, especially the joy I saw one evening while visiting the VA hospital. You were both over-joyed when you met up with one of your former patients who was still in the hospital. The joy I saw in him and you spoke volumes in describing the love and caring values that you carried throughout your life. We know the Lord has a special place for you on his sailing crew. We will miss you, but know that you will be at peace in calm seas and his loving arms. BRAVO ZULU.*
